

Allocation of UFV Research Support 2017-2018

Regulatory requirements and accreditation

Costs associated with UFV Human Research Ethics Board (HREB) and Animal Care Committee (ACC) compliance with Canadian Council in Animal Care (CCAC) the Tri-Council Policy Statement upgrades and maintenance of research facilities and equipment to meet regulatory requirements

Research management and administration

Salaries and training costs for staff who work on grant applications and research proposals; the research enterprise costs associated with publications and events that highlight UFV research; costs of grantwriting workshops and professional memberships

The Research Support Fund plays a vital role in many of our successes, either directly or by allowing us to redirect funds to support research activities. Some of our support for UFV faculty and student researchers in the 2018 academic year are listed below:

- Committing funds in support of faculty research projects, and assisting researchers from all disciplines
- Assisting faculty and students to publish research outcomes and present at professional conferences
- Awarding UFV's Research Excellence Award to faculty member Derek Harnett, Associate Professor, Physics.
- Hosting a faculty MicroLecture where faculty presented two minute lectures on the findings and implications of their current research.
